OBJECTIVE

Results-driven Full Stack Developer skilled in **HTML, CSS, JavaScript, Python, relational databases** and also focussed on **Data Analytics**. Experienced in **RESTful APIs, Git, and deployment workflows**, building **scalable and high-performance web applications**. Strong in **problem-solving and clean code practices**, ready to deliver impactful solutions in an agile environment with technical responsibility and leadership .

EDUCATION

- **B.E - Computer Science and Engineering (2022-2026 graduated)** | Nadar Saraswathi College of Engineering & Technology - 7.79 **CGPA**(up to 8th semester)
- **HSC | 2022 - 67%**
- **SSC | 2020 - 65%**

SKILLS

- **Programming Languages:** C, Python, Java ,SQL,C++
- **Software Development:** HTML, CSS, JavaScript, Bootstrap ,mysql, Flask
- **Tools:** Eclipse, NetBeans, Visual Studio Code, PyCharm , Power BI, Excel,tableau
- **AI/Machine learning :** Pytorch, Computer vision, LLM,Tensorflow.
- **Database:** MongoDB, MySQL, PostgreSQL

PROJECTS

Smart-Grievance-Redressal-System - <https://github.com/SivaPandiv/Smart-Grievance-Redressal-System>

- Built an **AI-powered** Smart Grievance Redressal System.
- Used Generative **AI and NLP** for intelligent complaint analysis and automated resolution support.

Cyberbullying Detection using ML - <https://github.com/SivaPandiv/cyberbullying-detection-ml>

- Built an **ML & NLP**-based cyberbullying detection model
- Used sentiment analysis to classify and detect abusive text.

Online Shirt Try-On Website - http://github.com/ssivapandi/Virtual_shirttracking-main

- Developed a virtual try-on application using **OpenCV, Computer Vision, and Python**.
- Implemented real-time garment visualization and object tracking to provide an accurate and seamless user experience.

INTERNSHIP AND EXPERIENCE

Assure eService , Chennai - Data Analytics & Python (FEB 2026 – APRIL 2026)

- Completed a Data Analytics project using Python, Power BI, and Tableau. Performed data cleaning, exploratory data analysis (EDA), and visualization on structured datasets. Developed interactive dashboards and generated actionable insights to support data-driven decision-making

Techvolt Software Solution, Coimbatore -Full Stack Java Intern(JUNE 2025 - JULY 2025)

- Completed a Full-Stack Development Internship using Java technologies. Worked on web application development, frontend integration, and backend support while collaborating in an agile team environment

Thirumular IT Solutions, Chennai - Web Development(FEB 2025 - MAR 2025)

- Completed a Web Development Internship at Thirumular IT Solutions, Chennai. Developed responsive web applications and gained experience in frontend development and project collaboration.

CERTIFICATIONS

- Python Programming- Infosys Springboard
- Advanced data science- Cisco
- Advanced Java programming - Infosys Springboard

ACHIEVEMENTS AND PARTICIPATION

Participated in the **NSCET Hackathon**, collaborating in a **team-based competitive environment** to develop **innovative software solutions** under tight deadlines, showcasing **problem-solving** and **collaboration skills**.
